Development Delivery Services November 2023 - Present

Consultancy services to the development sector. Servicing a portfolio of clients seeking development management and delivery services across their real estate assets as they progress the development lifecycle.

Tritax Symmetry December 2021 – September 2023

Responsible to the shareholder board delivering a pipeline of industrial developments across the region, to achieve a targeted annual increase to the funds managed portfolio. Developments procured both speculatively and for contracted occupiers, the role required condonation with Development Managers while undertaking leadership and budgetary responsibility of high performing professional teams, delivering design, procurement and then construction of industrial units, with challenging site constraints and timescales, with an increasing focus on innovation and carbon reduction. Utilising control and reporting procedures alongside affective risk management 1.6m sqft was delivered within a development budget of £170m.

Granite Turner Sept 2020 – November 2021

Bolton, on securing options for the acquisition of prime town center sites the role was established to lead developments to deliver mixed-use schemes across the town center at Victoria Square, Trinity Gateway and LeMans Crescent to achieve unparalleled regeneration and transformation for the people of Bolton. Appraised at £350m and financed through income strip funding required management of stakeholders across the Council, GM and JV partner (BCEGI) along with establishment of development capability within the business to aid realise delivery in line with the business plan. Planning was secured for retail, offices, affordable and open market residential, hotels, multi-story parking and an energy center, teams were assembled, designs progressed and procurement undertaken in readiness for commencement before all was arrested as a result of COVID19.

HIMOR June 2017 – Aug 2020

Developer Capability. Holding board responsibility for development, the role required the formation of a team and establishment of procedures to administer development across the group. It was also necessary to forge key relationships with funders, advisors and property professionals so the capability was communicated and understood across the industry.

Carrington, An acquisition of 1,667 acres with development potential fueling a strategy around Trafford's need for housing and job creation saw a vision for 6,000 homes and 4m sqft of commercial established. Within 3 years projects had been established to clear the site, divert/enhance infrastructure and consolidate tenants along with projects delivered securing outline consent for the first 650 homes, 850,000 sqft of industrial and logistics. A remediation strategy was deployed and the first commercial development (212k sqft of B2&B8) was constructed and let. The size and ambition of the vision demanded the need for collaboration and partnership with tenants, adjoining land holders, Trafford Council and the wider GM community. This need saw partnership agreements negotiated and nurtured that yielded, land swaps, government grants and planning consents along with a 30% net increase in the asset value.

Mouchel / Kier Nov 2008 – June 2017
