C/V ANDREW BREMNER

Project Management Construction/Fabrication/Superintendent /Auditor/Civil/Oil & Gas/Marine/Energy, On/Offshore.

Tel. +973 3559 1584

Email: andrewjbremner1@hotmail.com

Objective

Construction/Fabrication/Engineering/Supervision/Project Management/Safety /Welding & Pipefitting/Mechanical installation in Oil Gas and Civil/Structural Engineering/Conditional Survey and Inspection/Commissioning.

Work Experience

Previously have been working on various projects worldwide for 35 years plus doing On/Offshore Project Construction Supervision and Management and survey and inspections on MODUs, jack-up and land rigs, FPSOs,FLNG,FSU, pipe laying, work vessels, barges and fixed platforms. Have experience in hook up, pipelines, topsides installation and engineering EPC, and pipe laying projects. Have extensive knowledge of shipyard Construction/Repair/Survey/Auditing and construction methods and procedures both on/offshore.
Have worked on oil and gas refinery projects in the UK and worldwide for British Gas in Tunisia and BP at Sullom Voe and St Fergus.
Have been in the Construction, Engineering and Offshore industry for 35 years worked as an Apprentice Fabricator/Welder,Multi Coded Pipe Welder, Rig welder, Pipe Fitter, Mechanical Fitter, Welding Supervisor, Construction Super, Project Manager. Educated to diploma level in engineering and fabrication. Have excellent man management skills a good education in QHSE, QA/QC, and a proven record of delivering projects on time and under budget. Have worked for most of the major companies
BP,SHELL,CHEVRON,SBM,MOBIL,SANTAFE,McDERMOTTs,STATOIL TRANSOCEAN,ODJFELL,DOLPHIN DRILLING,TALISMAN,TOTAL, etc.
Have Civil Engineering and Construction experience having worked on several projects including BBC studios at White City, Wimbledon Race track, Victoria Mall London.

Education

74-79 Lossiemouth High School
SCE O Grade-English, Maths, Physics, Eng. Drawing, Geography, Arithmetic.
79-82 Moray University, Elgin, Scotland,UK.
E.I.T.B. for Craftsmen & Technicians Diploma in Engineering
City & Guilds Fabrication and Engineering Drawing Diploma
City & Guilds General and Mechanical Engineering Diploma
City & Guilds Welding Craft practices and Technology Advanced Diploma

ASME1X/6GR,Lloyds registered welder.MMA,TIG,MIG,SUB-ARC,ORBITAL,PIPELINE.
CSWIP. MPI, DYE PEN, UT, Weld Inspection and Interpretation.
79-83 Apprentice Fabricator/Welder, Elgin Engineering
Offshore survival & Firefighting. BOSIET -2021.
Basic rigging skills/Abrasive Wheels/Manual Handling/Welding, Flame Cutting & Gas Storage.
Offshore Safety Representative Certified.COSHH.
Risk Assessment/Accident/Incident/COSHH, Training.
BOC gas control equipment Inspection course
PTW Shell/BP/ PICWS >ID.2018979
ISSOW Talisman
OPITO/CIS Card No.0012804.
IADC qualifications as for Santa Fe Drilling.

Work History

Night Project Manager.
Avantis Marine Ltd.
Sea Rose FPSO LED Project 2023/24
Harland and Wolf Belfast.
Manage the activities and priorities of all project personnel assigned to the project including engineers, supervisors, operators, project control.
* Establish project scope and manage the change process.
Pipework Work Scopes
Steel Work Scopes
Mechanical / Inspection Work Scopes
* Plan, monitor and manage multiple works and associated scopes.
* Familiar with all project phases from Concept Development, FEED, Execution, to Closeout.
* Self-starter with little or no supervision
* Provide meaningful reports to status projects
* Experience with setting up and executing projects in isolated conditions
* Maintain project schedule and budget.
* Conflict resolution management skills
* Implement and manage risk mitigation plans.
* Understand technical drawings and documentation
* Familiar with oil industry standards and regulations

Bolashak Atyrau Chevroil Tengiz Kazakhstan
Area Control 3GP, PTW-September 2022 to May 2023.
Technical control specialist for engineering and construction works.
Liaising with construction, completion systems, operations departments as the primary permitting specialist.
Analize work permit applications and ensure sufficient detailing of supporting documents to accurately identify potential work/project activities .

Construction Superintendent Zamil offshore - Dammam October 2019 to October 2021

Manage all yard construction projects. OSV conversion, new build floating dry docks, pontoons, Ship and rig repair and upgrades.KSA Military HSI vessels. Upgrade construction personnel qualifications and safety awareness. Coordinate with HR for new hires. new Training centre for welding and fabrication.

Dec 2015/Sept 2018.On/Offshore, Drilling Rig
Surveyor/Auditor/Projects Construction Management.
K2 Services Singapore, App Velosi.
Off shore and land rig surveys for acceptance, conditional and bid to tender surveys. Soehanah, NAGA 2, DD8, jack up rig surveys for PERTAMINA Indonesia Bid to Tender.
PDSI,#18,2 LTO 650-M and PDSI,#9,2 N80 UE, PERTAMINA land rigs full conditional survey along with DROPs survey.
New build rig ZJ 30 CZ in HH yard Chengdu China,Full acceptance survey for Yemen Drilling for drill site in Sudan.

June 2014 /July 2014. Construction Manager
Transocean, OMS Dubai,
Palumbo Shipyard Malta.
MODU Amirante Transocean, SPS.Uwild and Upgrades, Zero discharge installations. Anchor winch and BOP crane and deck crane upgrades. Hull and deck steel replacements.

June 2013 / June 2014. Construction Manager
Dubai Dry Docks World. Dubai
Prelude,FLNG Turret for SBM/Shell/Technip
* Manage the activities and priorities of all project personnel assigned to the project including engineers, operations, project controls, contract administrators, inspectors, quality assurance, finance, supply chain, and other functional areas
* Establish project scope and manage the change process
* Plan, monitor and manage multiple projects and associated scope.
* Familiar with all project phases from Concept Development, FEED,EPC, Execution, to Closeout.
* Self-starter with little or no supervision
* Provide meaningful reports to status projects
* Experience with setting up and executing projects in isolated conditions
* Maintain project schedule and budget.
* Conflict resolution management skills
* Implement and manage risk mitigation plans.
* Understand technical drawings and documentation
* Familiar with oil industry standards and regulations
* Establishment of project organization and manning

SUPERVISORY RESPONSIBILITIES
* Supervises direct reports.
* Manages project assigned personnel
* Manage contractors and sub-contractors
* Assist with managing operations and performance of projects.
* Customer Internal and external interface management

QUALIFICATIONS

* Working knowledge of all disciplines in the design engineering fields that pertain to the construction and operation of vessels and drilling rigs.
* Working knowledge of project management methodologies and tools, including cost estimating and scheduling.

May 2012 / Nov 2012 Project/Construction Manager
Adyard Ltd. Abu Dhabi,
* Manage the activities and priorities of all project personnel assigned to the project including engineers, operations, project controls, contract administrators, inspectors, quality assurance, finance, supply chain, and other functional areas
* Establish project scope and manage the change process
* Plan, monitor and manage multiple projects and associated scope.
* Familiar with all project phases from Concept Development, FEED, Execution, to Closeout.
* Self-starter with little or no supervision
* Provide meaningful reports to status projects
* Experience with setting up and executing projects in isolated conditions
* Maintain project schedule and budget.
* Conflict resolution management skills
* Implement and manage risk mitigation plans.
* Understand technical drawings and documentation
* Familiar with oil industry standards and regulations
* Establishment of project organization and manning

SUPERVISORY RESPONSIBILITIES
* Supervises direct reports.
* Manages project assigned personnel
* Manage contractors and sub-contractors
* Assist with managing operations and performance of projects.
* Customer Internal and external interface management

Jan 2011 /May 2012 Project Manager, K2 Singapore
Raniworo jack-up project survey and audit for Total Indonesia.
Parameswara Jack-up Drilling Rig Balikpapan Offshore, Conduct Structural survey and propose and oversee repair work for Total Indonesia and Transocean Drilling.
Conditional Survey land Rig ETP #3 Badung Badung Sulawesi.
Pacific Bora Drillship Singapore to Cape town, Manage completion of shipyard Scope of work for client acceptance.
Total Indonesia Balikpapan -Conducting Project Repair and Upgrade Surveys on the Raniworo jack-up rig.

Aug2010/Jan 2011 Construction Superintendent-Transocean.
Magellan jack-up Drilling rig.
Project Executed at Keppel Verolme, Rotterdam from Oct 2010 to Jan 2011; Project Planning, Developed and Executed; Scope of work includes the Refurbishment of Level 1 and 2 Accommodation; UWILD, Guide and Wear plates change out, Life boats davits replacement, all Three crane Column repairs, Steel replacement, Coatings Full Rig wide, all Drilling and Subsea Equipment Overhaul, test and Commission. Project team Consists of skilled and experienced Engineers and Administration, Finance and Procurement team, in total 30

Upgrades and SPS and additional hull and leg repairs and package upgrades piping and structural and equipment installations.
Working between Aberdeen office and Botlek Shipyard Rotterdam. Managed all construction personnel, ensured work scopes prepared and executed, All QHSE and directives followed.Liased with sub-contractors, suppliers. Set up shipyard quotes and SOWs to be completed ,overseen all procurement for the materials and consumables for the project and construction team. Monitored all personnel logistics. Maintained a high safety conscious work environment.

Jan/April 2010 Project Supervisor-PT BHUMI PERKASA.Sumatra.
Survey and repair of damaged structures and pipelines on pipe lay and workover barges and platforms. This involved the management and supervision of contractors to carry-out the necessary repairs, maintenance and inspection.
Adherence to all the necessary safety codes/standards set down by line management to carry out these projects.

Oct 2009/Jan 2010 Project Construction Supervisor/Borgesten Dolphin Semi Sub at Invergordon. Repairs to hull and Ballast tanks and upgrade drilling package. Ensure all parties followed Dolphin QHSE directives and regulations. Oversee Work scopes which included.
Removal of Port and Stbd stability columns, Replace fire main, structural repairs, BOP removal, Repair replace service lines as required.

April/Aug 2009 Project Construction Supervisor/ Hibiscus Transocean Drilling barge, PT PAL Shipyard Surabaya Indonesia. Repairs to hull and Ballast tanks and upgrade drilling package. Oversee and liaise with shipyard management and sub-contractors for personnel, materials and consumables. Ensure all parties followed Transocean QHSE directives and regulations. Manage and direct construction work scopes for all third party personnel total of 350 at peak of project. Daily progress and update reports to management and project forecasts.
Assess and procure materials and manpower.
Co-ordinate work areas and personnel and oversee delivery of project on time and under budget.
Seconded to Transocean from Global EPS.

Scopes of work on this project included;
" 105 MT of hull steel replacement
" 55 MT of topside steel replacement
" Additional Structural repairs as required by class
" Hull and main deck painting
" Hull tank painting
" Sacrificial anode renewal, internal and external
" Draw works overhaul
" 3 x Mud pump power end overhauls
" Koomey unit renewal
" BOP renewal
" Accommodation refurbishment
" Fire and Gas Detection upgrade
" Current Injection Testing
" 5 Year Dry Docking Survey
" 5 Year SPS Hull
" 5 Year SPS Machinery

Mar/April 2009-Project Construction Supervisor, Key Manhattan, Jack-up. Survey for shipyard Repair and Upgrades, on/offshore Egypt.

Surveyed all scopes of work assessed material, consumables and man power requirements for bid proposal.
Prepared bid for Global EPS.
Jan/Feb 2009-Project Manager Blackford Dolphin, Semi- off/onshore Ghana. Repairs and upgrades. Managed all construction personnel, ensured work scopes prepared and executed, all QHSE and Dolphin directives followed.Liased with sub-contractor suppliers, overseen all procurement for the materials and consumables for the project and construction team. Monitored all personnel logistics. Maintained a high safety conscious work environment.
Nov/Dec 2008-Project Construction Advisor.Transocean Searcher, Semi-submersible. Repair and Upgrade in Hagentagen dock Bergen Norway. This was the first rig project that the Bergen group had under taken and was there primarily in an advisory role.
Was hired out by Global EPS to the Bergen Group Ltd to manage their yard during the project. Monitored all construction scopes to completion, maintaining all QHSE and QA/QC standards were adhered to. Advised and assisted Bergen group personnel on all aspects of rig repair and upgrades through to project delivery on time.
Sept 2008 - Project Supervisor. Clyde platform North Sea.
Install temporary cement unit and replace wire line unit and associated equipment and pipework. Contracted to Odfjell Drilling from Global Resources EPS.
April 2008-July 2008 Construction Supervisor. Transocean Actinia, Semi-submersible. Repair and upgrades in shipyard Visakhapatnam, India.
Manage and oversee 300 sub-contractors, ensure all QHSE regulations and directives were adhered to. Control work areas, material and consumable availability.Liase with contractors and rig management and prepare daily directives and reports. Ensure project safety and schedules were achieved.
Deliver project on time and below budget.

Scopes of work on this project included;
" Anchor chain inspection
" Anchor winch pocket build up
" Replacement of pipe deck
" Structural repairs as required
" Dolly Track replacement
" Top drive/Crown Block/Travelling change outs
" Draw works overhaul
" Additional lifeboat and platform installation
" Accommodation refurbishment
" Main Engine generators changed out
" SCR control system upgrade
" Fire detection system replacement
" Installation of Hull Impressed Current system
" 5 Year Structural Inspection Completed
" 5 Year UWILD Completed
" Fairleader wheels renewed
" Mud pump power end overhaul.
December 2007-April2008 Construction Super. Transocean Richardson Semi-submersible
Seconded to Transocean through Global Resources as Construction Supervisor for SPS work and 1825 day planned maintenance and upgrades in Angola.

Scopes of work on this project included;
" Anchor wire and winch overhaul
" Crane overhaul and upgrades
" Replacement of pipe deck
" Structural repairs as required
" SW and Fire water line replacement.
" Top drive/Crown Block/Travelling change outs.
" Draw works overhaul.
" Installation of riser booster mud pump.
" Accommodation refurbishment.
" Main Engine generators changed out.
" SCR control system upgrade.
" Fire detection system replacement.
" Installation of mud oil mix system.
" Thrusters removal

MAY 02-2007 CONTRACT WORK ON/OFFSHORE PROJECTS
PROJECT CONSTRUCTION SUPERVISOR
Offshore UK Brent field
GLOBAL EPS ABERDEEN
Offshore Shell platforms, Dunlin, Auk, Fulmar, Clyde
AXIMA-CIVIL CONSTRUCTION KNIGHTBRIDGE LONDON
MACGREGOR ENERGY SERVICES
Offshore UK/Holland/Norway

Construction of MICK THE MILLER STAND Wimbledon stadium London
AUG 98-OCT 2001 MACGREGOR ENERGY SERVICES ABERDEEN
FABRICATION AND WELDING SUPERVISOR
SBM Kuito FPSO Angola-Riser Pipe work and New Production module Installation.
Brent Field Platforms upgrades to drilling packages.
WORLD .COM BIULDING DUBLIN,
Installation of water cooling system and associated HVAC and fire protection equipment.
ASME ix, Lloyds registered.
HANNIBAL GAS PLANT BRITISH GAS –TUNISIA, WELDING SUPERVISOR.
Shutdown and installation of separation units and associated pipe work.
Repair AMINE Coolers and Heaters.
TIG/ASMEIX ORBITAL Welding, ABS LLOYDS Registered.
STOL COMEX SEAWAY-SEAWAY EAGLE.

Fabrication and installation of Fuel supply lines and Deluge system.

SOLITAIRE PIPELAYING SHIP NORWAY

Fabrication and welding of various pipe work and structural steel.

SCHEILLEAN FPSO IN VEROLME BOTLEK DRY DOCK-HOLLAND

Fabrication and welding of various pipe work and structural steel for upgrades and conversion.

STENA SPEY SEMI-SUB VEROLME BOTLEK-HOLLAND

Remove and Replace Dowell Cement unit and upgrade pipe work.

SEAWAY FALCON OFFSHORE- DENMARK

Repair and fabrication on Pipe trenching and ROV Unit

MARCH 89-JUL98 SANTA FE DRILLING UK

RIG WELDER SUPERVISOR.

Magellan ,Monitor ,Galaxy Jackups ,CLYDE,AUK,FULMAR,TIFFANY Platforms and the 135 and140 MODUs.

Project Fabrication-General repairs and maintenance to units,Supervision/management of engineering projects.

Submit drawings and sketches to Engineering Dept. for approval.

Order materials and consumables for related projects.

Involved in Risk Assessment and Safety Management System.

Leg and hull repair work and installations of mud and cuttings systems. Installation of heavy lift skid base onto Jack-Ups.

NOV 85-FEB89 VARIOUS AGENCY CONTRACTS

FITTER/CODED WELDER

Dietsman Recruitment PIPER ALPHA SALVAGE MSV THAROS, Occidental Petroleum.

Hydro carbons GB, Morecambe bay, Gas pipeline.

Labtech Services Portlethen, Module fabrications.

Empac Group Ltd-Fitting and welding of sea fasteners on transportation vessels for MOD Modules from Falklands to UK.

Humberoak Personnel-North Alwyn “A” Rig Welder.

Petrology Ltd-Deck sections Gullfaks”C” Rauma Repola Yard FINLAND.

Enterprise Eng.Aberdeen-Fab and weld spools BRAE “B” platform

Blandford Offshore Serv.Ltd.-Hull repairs on Fulmar FSU/High and Low pressure separators and associated pipe work in the NINIAN field for CHEVRON Petroleum.

SMS Aberdeen-Installation of choke and kill lines and high pressure pipe work on the SEDCO 135G Semi Sub in Angola.

OPM-Welding extra buoyancy tanks on BP Sea Explorer/Semi Sub.

Enterprise Eng-Welding pipeline and spools for BP BUCHAN “A” platform.

JUNE 84-OCT85 ABERDEEN JIG AND TOOL

NIGHTSHIFT FITTER WELDER

Coded welding ASMEIX,Pipefitting/Fabrication/MPI.DYE.PEN Inspection.

Sub Arc Welding.

PROJECTS

Repair - Vetco casings (pins boxes), Guide bases, sealing areas on HYDRIL Bops, repair CAMERON Wellheads and production Risers.

AUG 79-84 ELGIN ENGINEERING MOYCROFT IND.EST. ELGIN

APPRENTICESHIP IN FABRICATION & WELDING

Coded welding ASMEIX, Pipefitting/Fabrication /Steel Erection/CNC operation/Oxy.Acet plate bed cutting.

PROJECTS

Hutton T.L.P., Morecambe Bay Pipeline, Sub contracted out to McDermott's Ardersier Scotland for work on Flotation tanks.
Offshore modules for RB Farquhar.Lifting Jig for RGC.
Pile guides for Highland Fabricators Nigg.
Fabricate and erect Rose isle Maltings for Scottish Malt Distilleries.
Aberdeen FC south stand.
Marine/General structural steel fabrications
