## Suitability to the Role

I am a proficient individual who has gained experience in both the contracting and PQS setting, most recently with Arcadis. I have ensured that I have efficiently carried out roles in every job that I have undertaken. I have always provided strong teamwork skills when required and believe that I can bring value into a project through my lean thinking, analytical yet systematic approach and wider passion for the construction industry.

## Relevance of Experience

My duties have included both pre contract and post contract Cost Management roles, providing me with a good depth of knowledge. Past work experiences have included internships with Morgan Sindall, Willmott Dixons, and Appleyard and Trews. I have engaged with all types of stakeholders throughout the life cycle of a project and have provided sound advice to clients in relation to value engineering, procurement and supply chain strategy as well as typical cost reporting relevant to each RIBA stage.
