Personal Statement:

A confident professional, passionate about construction and building highly effective teams, to deliver complex major projects. Over 27 years industry experience covering a wide range of sectors. A huge advocate for incorporating new technologies alongside ever-improving modern methods of construction. A champion for excellence, achieving the highest quality, delivering a lean programme, reducing the on-site workforce, and improving health, safety & well-being. Target driven and passionate about influencing the team to strive for their absolute best, always looking for innovative solutions to push the programme to its optimum position. Responsible to lead, drive and manage the complete Design & Build process for valued Clients and their Project Teams.

Hobbies, Interests and Volunteering:

- I really enjoy socialising with friends, taking meals out, and generally spending time with the family. I love to be outdoors, especially fishing, walking the dog in the countryside or along the beach, or simply a quiet coffee in the garden! I'm also into movies, music, and books.
