

Mohammad K. Omeish, Energy Consultant, PMP

Profession: Project Manager, Owner's Engineer, EPC, IPP, MEP
Phone: +1 514-746-1727 CA | +961 7090-1727 LB | E-mail: mohd.omeish@gmail.com

Experience

Project development, management, construction, commissioning, operation and maintenance for thermal and renewable power plants, oil & gas refineries, water treatment utilities, and complex commercial & industrial projects with more than (15) years of experience specifically on EPC and IPP power plant projects.

Employment History

June 2024 – Present
HVDC Installation Manager, EPC
HITACHI ENERGY LTD. www.hitachienergy.com — Ludvika, SE

- Prime point of contact for HVDC installation works on EPC projects.
- Oversight of project controls and responsibility for implementing Project Management Plan, QHSE Plans, Supply Chain shipments, Work Breakdown Structure, and Schedules, & Inspection Test Plans.
- Management of installation teams, subcontractors, vendors, and technical field advisors
- Execution of site activities for successful systems completion and transfer to commissioning, including HVDC Converters equipment, Transformers, Switchgears, HV/MV/LV Conductors, Cables, Protection and Control Cabinets, Backup and Auxiliary Systems.

Projects: — Montreal, CA

- 1200MW Champlain Hudson Power Express (CHPE) – HVDC Poste Hertel - Hydro Quebec
- 1500MW Chateauguay Bi-Pole Link – HVDC Back-to-Back - Hydro Quebec/NYPA

July 2023 – May 2024
Technical Manager, IPP
ERANOVE www.eranove.com — Paris, FR

- Lead engineering review of process and instrumentation diagrams, functional descriptions, and protection controls for Combined Cycle power plants.
- Direct and manage field construction and commissioning activities on the project inclusive of erection procedures, ITPs, and functional testing of Gas Turbine, HRSG boiler, Steam Turbines and BOP, including utilities, water-treatment, water-intake, firefighting…etc.
- Oversight of Construction & Commissioning, Plant Performance, and Reliability Tests, and O&M Services in line with contractual obligations under EPC and PPA with shareholders, lenders, and government authorities and utilities.

Project: Atinkou 400MW Gas Combined-Cycle Power Plant www.atinkou.ci — Jacqueville, CI

Dec 2022 – June 2023
Construction Manager, EPC
ENCO GROUP www.encogroup.net — Beirut, LB

- Mechanical Works for piping and steel structure fabrication and installation.
- Manage construction and pre-commissioning teams to achieve systems completion and operational readiness and perform functional checks and testing.
- Managed direct/indirect manpower, local suppliers, and vendors including local procurement, commercial invoicing, and payment certificates.
- Supervised all mechanical processes including steel & equipment erection, piping, thermal cutting, rolling, fitting, welding, NDT (DP, RT, UT), heat treatment, hydro-tests, pickling, passivation, flushing, commissioning, sandblasting, painting, insulation, instrumentation…etc.

Multiple Projects:

- Atinkou 400MW Gas Combined-Cycle Power Plant — Jacqueville, CI
- SAIPEM FSRU Pipeline Project Offshore/Onshore — Abidjan, CI

Dec 2021 – Nov 2022
Commissioning & Operations Manager
VISTA ENERGY L.P. www.vistaenergylp.com — Houston, TX

- Lead technical team with responsibility for setting up PM Plans and SOPs to best practices and procedures for construction & commissioning of power plants & petroleum refineries.
- Direct and manage the field construction and commissioning activities on the project inclusive of mobilization plan, schedule, testing of main units, boilers, and BOP, including auxiliary utilities, gas turbines, boilers, RO, SCADA, black start generators, battery storage power.
- Design equipment spec., startup/shutdown process, and diagnostic troubleshooting, and preparation of detailed functional procedures, service plans, and work breakdown structure.

Project: TengizChevroil Refinery, 3GP Future Growth Project – Chevron, Exxon, & Tengiz JV — Tengiz, KZ

Jan 2018 – Oct 2021
Owner's Engineer, IPP
ENDEAVOR ENERGY HOLDING LLC www.endeavor-energy.com — Houston, TX

- Lead EPC & O&M contracts within project controls and responsibility for setting up and implementing Project Management Plan, QHSE Plans, budgets, and schedules.
- Collaborate with relevant stakeholders in the preparation of technical deliverables and detailed construction & commissioning procedures and plans to meet contractual milestones.
- Direct and handle the construction & commissioning process on the project inclusive of the startup plan and functional testing of main units, boilers, and BOP including systems pressure testing, chemical cleaning, steam blowing, and first fire.

- Issued final approval for all levels of documentation, drawings, procedures, reports, and contracts; PPA, EPC, and O&M including fuel purchase agreements and government permits.

Project: Tè Power, 50MW Heavy Fuel Oil Power Plant www.tepowercompany.com — Conakry, GN

Feb 2014 – March 2018 — **Mechanical Project Engineer, EPC**

BWSC - Burmeister & Wain Scandinavian Contractor A/S www.bwsc.dk — Copenhagen, DK

- Prime point of contact for customer, client rep. and sub-suppliers/contractors on site
- Lead installation and commissioning of main units, and HRSG boilers, combined cycle steam turbines with ACC units including auxiliary systems completion and operation (Compressed air, Water treatment, Fuel/Gas systems, Exhaust Gas, Ventilation, Firefighting…etc.,)
- Managed project resources, sub-contractors, suppliers, labor, materials, equipment, tools, and consumables for smooth sequence of construction activities and field supervision
- Attained approval from consultant & client rep. for handing over of completed works & TOC.

Multiple Projects:

- Zouk Power Plant 180MW Thermal Power Plant combined cycle steam turbine — Zouk, LB
- Jiyeh Power Plant 72MW Thermal Power Plant combined cycle steam turbine — Jiyeh, LB
- Kayes Power Plant 90MW Thermal Power Plant with heat recovery www.aem-sa.com — Kayes, ML

Sep 2011 – Jan 2014 — **Mechanical Site Manager, IPP**

MATELEC GROUP www.matelecgroup.com — Amchit, LB

- Complete Mechanical Works for Heavy Fuel Oil Power Plants IPP Projects
- Manage construction and commissioning teams to achieve systems completion.
- Prepared technical specifications and negotiated commercial bids and tenders with contractors and suppliers for plant equipment issuing BOQs, RFPs, and POs, for main equipment, pipes, valves, pumps, separators, weighbridges, steel buildings, tanks, fuel oils, and chemicals...etc.
- Supervised all mechanical processes including steel & equipment erection, piping, thermal cutting, rolling, fitting, welding, NDT (DP, RT, UT), hydro-tests, pickling, passivation, flushing, commissioning, sandblasting, painting, insulation…etc.

Multiple Projects:

- Thika Power 87MW Thermal Power Plant combined cycle www.thikapower.co.ke — Thika, KE
- Tobene Power 70MW Thermal Power Plant combined cycle www.tobenepower.com — Tobene, SN

2009 – 2011 — **Procurement & Logistics Engineer**

SODACO ENGINEERING & CONTRACTING LLC www.sodacogroup.com — Dubai, UAE

Onshore and offshore procurement for Civil & MEP requirements / Prepared RFQs and RFPs / Issued POs and contracts after commercial and technical evaluation / Follow-up on deliveries, missing items, spare parts, consumables, and supplier payments.

Projects: Beit Misk Residential Complex / Private Apartment Renovations

Original Equipment Manufacturers

HITACHI ENERGY, ABB, GE, SIEMENS, MAN Diesel & Turbo, WARTSILA, CATERPILLAR, John Deere, WOOD, Aalborg, Cleaver Brooks, Alfa Laval, GEA, AMIBLU, SPG, HAMON, Tyco.

Education

2021 — **University of Michigan, School of Information,** Python Programming Specialization — Michigan, USA

2011 — **American University of Beirut, Faculty of Engineering & Architecture** — Beirut, LB
Department of Mechanical Engineering, Bachelor's in Mechanical Engineering

Certificates

- Project Management Professional – PMP License: 1504988
- Compliance & Anti-money Laundering – Endeavor Energy Certificate
- Operational Procedures for Diesel Power Plant – BWSC Certificate
- RRC Site Supervisors Safety Training Scheme – RRC International
- Electrical Power & Energization Level 3 – TCO/RoK Certificate
- Operation of Steam Boilers and Pressurized Vessels Level 3 – TCO/RoK Certificate
- HVDC Engineering Diploma – Hitachi Energy Ltd.

Knowledgeable Standards

ISO, ASME, ASTM, API, ASHRAE, EN, DIN, BS, NF, NFPA, VGB

Advanced Computer Skills

- Engineering Control: EDS, DCS, SaCoS, KHUSE, WOODWARD, SIEMENS
- Engineering Design: HAP, PSpice, Xilinx, ANSYS, SAP2000, ADAMS, ProEngineer, G-Code
- Engineering Graphics: AutoCAD 2D & 3D, Navisworks, Revit
- Programming Languages: C++, Visual Basic, MATLAB, LabView, SQL, HTML, CSS, Python

Professional Memberships & Societies

2012 – Present • PMI - Project Management Institute

2011 – Present • Order of Architects & Engineers Beirut (Elected Member for Council of Representatives)

2010 – 2011 • President of ASHRAE AUB Student Branch

2010 – 2011 • ASME (American Society of Mechanical Engineers)

Languages

- Arabic, English, French
