CAREER HISTORY

Commercial Manager **August 2019 to August 2022**
Noble Projects Ltd
Knutsford
Cheshire

Working for a Management / Main Contractor on a number of "high-end" projects for private Clients throughout the Cheshire / Greater Manchester area ranging in contract value from £1.5 - £10 million. Using various JCT forms of contract, including Prime Cost, Construction Management and Design & Build, we are delivering the following projects:

- An apartment development of 8no properties with basement structure in Bramhall
- A new-build residence of approximately 26,000 sqft in Alderley Edge
- A substantial basement leisure facility to a Grade 2 listed property in Wilmslow
- A new-build 10,000ft2 residence with basement pool in Prestbury
- Rebuild of a Fazer Crane designed private residence in Wilmslow
- Refurbishment & extension of a Grade II Manor house in Nether Alderley

Chief Quantity Surveyor **November 2016 to July 2019**
Anwyl Homes
Anwyl Construction Ltd
St David's Park,
Ewloe, Flintshire

Chief Quantity Surveyor for the Homes division of Anwyl Construction Ltd, supporting the Commercial Director and managing the day-to-day activities of an expanding business across 12-14 residential developments throughout North Wales, Cheshire, Merseyside, Staffordshire & Shropshire with a team of 5 QS's of varying levels of experience.

Freelance Commercial Manager **May 2015 to October 2016**
Based from Cheshire

Providing a range of independent Quantity Surveying, Procurement, Land Appraisal and Commercial Management services, for a number of repeat Clients ranging from small private companies through to large multi-national material manufacturers, including:

- Bristol-based company designing and constructing new affordable residential developments, using a range of "PassivHaus" certified modular building systems developed and tested with Bath University.
- UK Technical Dept. of a major European building & insulation materials manufacturer.
- Worcestershire based Chartered Surveyors & Project Management practise providing appraisal, cost planning and tendering services
- Wiltshire-based construction company working on refurbishment projects

Commercial Manager **February 2014 to April 2015**
National Holding and Al Mojil LLC (NHM)
Abu Dhabi, UAE

Abu Dhabi based role for a Joint-Venture business established by my Saudi Arabian employer, managing a number of small scale on-going projects throughout the UAE for a number of Government and "Blue Chip" Clients including:

- **Abu Dhabi National Oil Co. (ADNOC)** – Contracts totalling AED 160 Million (£28 Million) to construct a new Kindergarten School in Ruwais, and several new Service Stations in Abu Dhabi.
- **Royal Court of Bahrain** – AED 32 Million (£5.6 Million) for renovation and extension works to the King of Bahrain's beach residence at Ghantoot.
- **The Command for Military Works (CMW)** – Contracts totalling AED 34 Million (£5.9 Million) for the construction of an underground bunker at the Nazwa military base, and a new refuelling facility for the Coastguard at Ghantoot.

Contracts / Commercial Manager **February 2012 to November 2013**
Mohammad Al Mojil Group
Dammam, KSA

Based in the Western region of KSA, and managing the Commercial functions on a number of projects between Yanbu and Jeddah.

- Twin Boiler erection contract works totalling SR 170 Million (£30 Million) on an EPC contract for a new power plant at Rabigh, with SEPCOIII as the Main Contractor and Rabigh Electricity Co. (RABEC) as the Client.

- Interconnecting Systems Main Contractor package of SR 850 Million (£150 Million) for Saudi Aramco and Sinopec at the new YASREF refinery in Yanbu.

- Hydrogen plant Subcontract package of $ 50 Million contract for Air Liquide, also at the new YASREF refinery in Yanbu.

Project Commercial Manager **July 2011 to December 2011**
Hastie International LLC
Doha, Qatar

- Short-term 6 month contract appointment as a site-based Commercial Manager for the Qatar office of the Australian contractor Hastie Group, who had been awarded a QAR 359 Million (approx. £60 Million) 2 year contract works on contract CP51 Passenger Terminal of the new Doha (Hamad International) Airport project.
- Main Contractor was a JV between Besix and the local contractor Midmac.
- The primary purpose of my appointment was to define the weekly/monthly work routines for the 4no site-based QS's, and to establish a decent working relationship with the Commercial team from the Main Contractor.
- Hastie Group was unable to provide Advanced Payment Guarantee bonds due to ongoing refinancing, and so a key part of the role became the renegotiation of payment terms with equipment suppliers and specialist subcontractors, and discussions with the Main Contractor to provide Letters of Credit on our behalf.
- Upon completion I handed over the role to one of Hastie's long-term Commercial Managers who had completed a University project in Abu Dhabi.

Commercial Manager **January 2009 to June 2011**
Arabian Construction Company (ACC)
Abu Dhabi, UAE

- Initially appointed as the project-based Commercial Manager for the Lamar Towers scheme in Jeddah, KSA. This was a mixed use development consisting of Twin 60+ storey towers and Podium totalling approx 4.5 million sq. Ft of Commercial and Residential development, with a total contract value in excess of SR 2 Billion (£350 Million), over a 42 month period. The role included administration of the contract, and managing a site-based team QS team.

- Transferred back to Abu Dhabi in late 2009 to carry out a Group Commercial role as part of a team overseeing all UAE major projects, total value in excess of AED 23 Billion (£4 Billion). Role included the Commercial implementation of SAP data management system, and the audit and review of the monthly CVR's from all projects, with particular consideration to the current position of Variations and Claims on these projects.

Regional Commercial Director **December 2007 to September 2008**
Bovis Homes Northern Ltd
Cheadle, Cheshire

- Appointed to the regional Board as part of team managing the integration of the Elite Homes staff and developments after its acquisition by Bovis, to oversee the Commercial functions, review the "fair value" exercise, and ensure the smooth integration of staff and data.
- Working with the internal Audit team to establish an acceptable valuation process on the partially completed schemes and to review contractual arrangements.
- Renegotiate the subcontractor & supplier contract terms for those working on acquired sites so that they align with Group requirements.
- Integration of the Elite Homes staff, forming a new enlarged Commercial team to manage the QS & Procurement functions on 26no projects across northern England
- In September 2008, at the beginning of the Financial Crisis, Bovis closed their Northern regional office in and my all roles were made redundant.

Regional Commercial Director **September 2005 to November 2007**
Countryside (UK) Ltd
Warrington, Cheshire

- Member of Northern regional Board, managing a team of 11no QS and Procurement staff and handling the Commercial function of the Greater Manchester (GM) business with annual turnover of approx. £90million per annum.
- With fast-track construction programmes focused upon speed of delivery, the need to provide detailed Monthly CVR reviews was a key requirement, with a focus on maximising ROCE, and continuous cost improvements through design and procurement betterment.
- Working with Salford Council, Highways Authority and the preferred RSL to undertake the regeneration of 180 acres of Lower Broughton, Salford in 2006. Scheme delivers a combination of mixed tenure accommodation, along with new commercial and leisure facilities, and a significantly upgraded infrastructure network. All works with the Local Authority and RSL negotiated and carried out under JCT 98 forms of Contract, whilst Highways Authority contracts were ICE Target Cost agreements.

Development Manager **October 2002 to September 2005**
The Casey Group
Rochdale, Lancs.

Appointed by a privately owned contractor with annual turnover of approaching £50million, with the aim of introducing an element of speculative housing work into their business.

- Using the existing direct-labour workforce, and supplementing with subcontract companies appointed on appropriate forms of contract, to undertake small bespoke developments and conversions of listed buildings such as mills, chapels etc.

- Role covered all areas from land acquisition, appointment of consultants & subcontractors, product specification and contract negotiations.

Commercial Manager **September 2001 to October 2002**
Redrow Homes (NW) Ltd
Preston Brook, Cheshire.

Appointed to support the Commercial Director and to manage the day-to-day surveying and procurement functions at the newly formed North West office, combining the former Redrow Homes Northern and Harwood Homes teams into one location. The role included:

- Managing a team of 8no QS and 2no Buying staff supporting an annual production in the region of 700 units p.a.
- Consolidating the Build-Costs and associated Specifications of the Redrow and Harwood products for use in future Land Acquisition appraisals.
- Monthly / Quarterly cost reporting on all active developments, and also managing the on-going maintenance costs of completed sites undergoing the adoption process.

General Manager **July 1999 to October 2001**
Longden Northwest (Shepherd Building Group)
Bolton

- Regional office completing approximately 150no new homes for sale each year from a range of small bespoke developments across the North West, with a turnover in the region of £25 Million per annum.
- Projects ranged from speculative "new build" residential, pilot schemes with English Partnerships implementing early PPG3 and future Part L policies, through to JCT Refurbishment contracts for the conversion of a listed building (Biddulph Grange, Staffordshire) with English Heritage and National Trust.
- Managed small diverse team of approximately 20no Commercial, Technical, Sales, Construction and support staff.

Technical Director (Designate). **September 1997 to July 1999**
Tay Homes (North West) Ltd
Sandbach, Cheshire

- Responsible for the Commercial functions for a region constructing approx. 300no units p/a, with a team of 10no QS and Procurement staff.
- In early 2009 the Company become the target of a hostile take-over attempt by another developer. As part of the defence against this action the Group announced a number of cost-cutting measures, which included the closure of the North West office at the end of their financial year.

Managing Surveyor / Technical Manager **May 1989 to August 1997**
Walter Lawrence / Raine Group Plc

Joined the Walter Lawrence Group in May 1989, which was acquired in April 1992 by Raine Plc:

- Managing Surveyor – South West region, Bristol – May 1989 to Dec 1996
  Headed up a team of QS's and Buyers that handled the cost and procurement functions on a number of residential "new build" projects throughout the South West

- Technical Manager – North West region, Altrincham Jan.1997 to Aug. 1997
  In addition to the role described above, my responsibilities were expanded to include the architectural and engineering design functions.

During the summer of 1997, the company was acquired by Alfred McAlpine Homes Plc and North West offices were closed.

Quantity Surveyor **August 1982 to April 1989**
Y J Lovell Group
Devizes, Wiltshire

- Worked on a variety of Local Authority schemes, both refurbishment and New Build, using JCT forms of Contract.
- Worked for 15 months on a Maintenance Term Contract for the Ministry of Defence at RAF Lyneham, Wiltshire, on a re-measurement contract with the PSA.
