PROFILE

A proficient Civil Engineer with a proven track record as a change influencer, skilled in defining, implementing, and positively shaping cultural change, behavioural safety, wellbeing, and business improvement. Possesses a unique 'people and culture' skillset, demonstrating a passion for sustainability and a commitment to making a positive impact. Fosters a collaborative and engaging workplace environment and advocates for inclusion and integrated activities, ensuring alignment with governance, compliance, and quality standards, while maintaining meticulous attention to detail. Exhibits the ability to apply and demonstrate leadership principles, coaching, and mentoring to achieve business objectives and contribute to the realisation of the company's Purpose, Vision, and Values.

AREAS OF EXPERTISE

- **Culture Change & Development** - Proficient in defining, implementing, and positively shaping cultural change within organisations.
- **Behavioural Safety and Wellbeing** - Experienced in leading and maintaining a safe and healthy workplace environment, understands industry safety standards and legislation
- **Communication & Engagement Strategies –** Developed and executed a comprehensive project communication strategy, showcasing expertise in aligning communication efforts with project goals. Conducted thorough stakeholder assessments, identified key messaging, with strategically selected communication channels. Implemented a systematic approach to reviewing engagement levels, ensuring that communication efforts remained dynamic and responsive
- **Stakeholder Management -** Managed effective relationships with stakeholders, contributing to successful project outcomes.
- **Event Facilitation** - Conducted sessions on leadership, behavioural safety, Insight Discovery for personality profiling and Inclusion and Diversity Workshops. Simplified complex concepts, fostering a culture of continuous improvement and enhancing overall employee development.
- **Leadership and Coaching -** Demonstrated ability to apply leadership, coaching, and mentoring principles to achieve business objectives.
- **Project Management** - Adept at translating strategy into achievable outcomes, ensuring project goals align with business objectives.

CAREER HISTORY

July 2011 – April 2023 - BAM Nuttall Ltd

Culture & Stakeholder Manager / Beyond Zero Advisor

Nationwide role, with a recent focus on projects in Scotland: Shetland HVDC (Viking Windfarm) inc Noss Head, Alyth / Kinnardochy / Tealing Substations, as well as involvement in the Cross Tay Link Road in Perth and the M8 Footbridge in Glasgow.

Key Responsibilities & Achievements
