**Juan Antonio Ramiro Nuño – PROJECT EXPERIENCE IN CANADA**

## Experience with Acciona Canada

South East Calgary Ring Road (Calgary, Alberta Transportation) – PPP project $769million -> Construction Project. Working as Project Field Engineer/ Project Coordinator roles. 31km of new Highway with 27 bridge structures. I was the main engineer responsible for the construction of 12 multi-span bridges.

## Carmacks (Vinci Group)

### Bid Projects

- South West Calgary Ring Road (Calgary, Alberta Transportation) – PPP project. Approx. $2billion -> Bid Project, working a Bridge Construction Lead. 45Km of new highway with 44 new bridge structures.
- George Massey Tunnel replacement (BC) – PPP Project. Approx. $4 billion -> Bid Project, working as Technical Lead for bridge structures and mainline retaining walls.
- Red Deer Interchange (Red Deer, Alberta Transportation) -> Design Build Project-> approx. $85 million -> Bid Project, working as a Bid Manager. 8 km of highway replacement and 4 new bridge interchanges.

**Construction Projects in remote areas acting as Project Manager** while supporting on the Bid Projects

- Regina By-Pass Project (Regina) – PPP project. Approx. $1.88billion-> Technical Support for self-performing bridge construction crews.
- Hwy-16 Bridge replacement-$1M
- Hwy-22 Bridge replacement-$1M
- Hwy-25 Bridge replacement-$1M
- Strawberry Creek Bridge replacement-$1.2M
- Hwy-39 Overpass Project: $1.6M
- Riablo Creek Bridge Project: $1M
- Beaton Creek Bridge Project: $2.5M
- Swift Current 2 span bridge: $1M
- Mulligan Creek Bridge Project: $1M

## Dragados Canada

Working in the Bid Department and Supporting early construction team deployment.

- **Davenport Diamond Grade Separation** –Design Build Finance Project Approx. $290 million -> Bid Project, working as Project Engineer / Assistant Project Manager. Rail project that consisted on 600m of elevated guideway (precast segmental bridge) with twining works for the existing railway.
- **Tunnel LaFontaine rehabilitation Project** (Montreal, MTQ) – Design Build Finance -Approx. $1.2 Billion – Bid Project, working as a Project Manager for the RFP phase. Road tunnel rehabilitation project and adjacent works to the tunnel. Tunnel approx. 2.5km long.
- **Union Station Enhanced Project** (Toronto, Metrolinx)- Alliance Project – Approx. $400-500 million -> Bid Project, working as a Construction Manager for the RFP phase. Enhancement of the existing Union Station building two new concourse levels.
- **Lakeshore West Infrastructure Improvement Project** (Toronto, Metrolinx) – Approx. $1.1 billion -> Bid Project. Working as Bid Manager and Construction Lead for RFP phase. Rail project that consisted of to upgrade 5 stations (with multiple rail tracks) and two grade separations (rail bridges). Project consisted of to keep railway traffic alive during the works, that made required a lot of temporary works and rail protection activities.

**Juan Antonio Ramiro Nuño – PROJECT EXPERIENCE IN CANADA**

- **Lakeshore East Central Infrastructure Improvement Project** (Toronto, Metrolinx) – Approx. $260million – Bid project as Bid Manager and Construction Lead for RFP phase. Preferred Proponent nomination but Client canceled project due to budget reallocation. Twining the existing LSE Line, including the twining of a existing bridge over a river, and the construction of two grade separations (rail bridges) to convert the at-grade crossing into a different level crossing.
- **Ontario Line South Civil** (Toronto, Metrolinx)– Design Build Finance Project – Approx. $7billion – Bid Project, working as a Technical Lead for Exhibition Station (station budget approx. $750million). The project consisted of the construction of approximately 6km of new twin tunnels, with 5 main underground station and the completely upgrade of Exhibition station from a traditional platform stop up to a station building with 3 different levels over more than 5 alive rail tracks.
- **Scarborough Subway Extension – Stations, Rail and System** (Toronto, Metrolinx) – Progressive Design Project-$5billion – Bid Project. Working as Construction Manager. Construction of 4 underground stations using sequential excavation method, and the installation of the rail and systems on the tunnel built by others.
- **SmartTrack Project – Finch Kennedy Station** (Toronto, Metrolinx) Construction Management at Risk (CMR) Project – approx. $340million -> Bid Project, awarded and worked on the Design Development Phase. Worked as Construction Technical Lead. Construction of a new station at the same location where an at-grade crossing needs to be converted into a grade separation (crossing in different levels).
- **East Harbour Transit Hub** (Toronto, Metrolinx) – Alliance Project - $400 million. Construction technical support. Construction of a new station that would become the hub between subway, LRT, railway services.
- **Calgary GreenLine LRT (**Calgary, City of Calgary) – Progressive Design Project -$5.5billion – Bid project. Commercial Management Support and Technical peer reviewer.18km new LRT project that's 4.5km of tunnel underground section, and 2km of elevated guideway (segmental bridge) and multiple stations, including a Maintenance Facility.
- **Pont d'Illes aux Tourtes Project** (Montreal, MTQ) – Design Build Finance -$1.8billion -> Bid Project, Estimating and Planning Technical Support lead, and support for early construction mobilization. Project awarded March 2023. Replacement of the existing 2.1km bridge by two twin bridges (multiple 90m intermediate spans, steel box girder with intensive maritime works.
- **Bowmanville Expansion Project** (Toronto, Metrolinx) – Construction Management at Risk (CMR) Project – approx. $340million -> Bid Project, awarded and worked on the Design Development Phase. Bid Manager during RFP Phase. 18km new railway alignment expansion from the Oshawa station up to Bowmanville station. 16 structures to be reconstructed and/or upgraded, 4 new stations and upgrades works in the existing Oshawa Station. Project awarded in May 2023 and acting for 5 months as Structural Bridge Lead for the project.
- **Pont d' Ile d'Orleans** (Quebec City, MTQ) – Design Build Finance -$1.8billion -> Bid Project acting as a Technical Director for the main stayed cable bridge 2.1km long, with intense marine temporary works. Nominated as Preferred Proponent and currently working on the Commercial Close. Supporting early design development as Technical Director.
- **Yonge North Subway Extension Project – Tunnel contract** (Toronto, Metrolinx) – Design Build Finance - $1B bid project. Bid Director for RFQ and RFP phase.6.3km of new twin tunnel, 3 underground stations, 3 Emergency Exit Buildings.
