KEY SKILLS

Multi-Industry Bid Management | Bid Process Improvement | Designing, Commissioning, & Championing Bid Departments | Bid Writing | Pitch Coaching | Matrix Management | Project Planning & Coordination | Training | Mentoring | Influencing | Crisis Management | Negotiation | Research

CURRENT ROLE

Global Bid Manager with **Valerann** (London/remote) **01/11/2022 - Present** (sector: Transportation Technology)

- Joined Valerann, a dynamic start up with a unique SaaS product, and set up a new bid department from scratch including all bid processes and a bid pipeline.
- Navigate a complex, fast-moving multicultural environment, gradually embedding a best practice bid mentality. A key focus is taking stakeholders with me as new layers of governance are added.
- Core focus is managing international bids/grants and deal teams, including stakeholders across the Americas, Spain, Portugal, Israel, and South Africa alongside UK colleagues. Key wins include our first Irish deployment with a government operator and a grant win with a global infrastructure operator based in Madrid.
- Provide both expert process management and granular commercial writing support, working closely with our Pre-Sales Lead on the technical aspects of bid responses.
- Commissioned an external designer to strategically refresh our proposal template and graphics with a focus on emphasising value and differentiation. Procured a global tender tracking subscription to provide crucial market intelligence on new opportunities.
- Positioned the business for success by creating a comprehensive library of bid resources including catalogues of all business, legal, and commercial information as well as a content database refreshed after each key bid.
- Delivered comprehensive bids training to stakeholders.

"Jamie's talent, expertise, and ability to work under pressure stand out in a crowd. He routinely distilled complex concepts into plain language and likewise conveyed technical details with the depth and clarity necessary for a successful bid. I enjoyed working with Jamie and would be happy to do so again." – **Matt Cooper, Vice President of Market Development** at Valerann US Inc.

"Jamie has a unique attention to detail with a clear analytical mindset, this affords him the ability to navigate complex bids and ensure a winning proposal. Jamie stands apart as a true professional from other bid managers, and I would not hesitate to recommend him to anyone as a highly competent and effective Senior Bid Manager." – **Alex Sykes, Director of Sales, UK & EMEA** at Valerann UK Ltd

HISTORICAL ROLES

Senior Bid Manager with **Version 1** (sector: IT Consultancy) **03/05/2022 - 05/10/2022** (remote)

- Championed bid best practice and worked with both the Managed Service and Oracle practices.
- One key strategic win was a high value bid to deliver Oracle enterprise consultancy to a well-known IT provider to the airport industry. This was a 100+ page submission that required in-depth bid planning, careful daily coordination, and extensive focused SME input during a period of constrained resource and rapid organisational growth.
- Managed multiple Local Authority bids, for example to Harrow and Croydon Councils, while including and oragnising external partners such as Civica and PA Consulting within the deal teams.
- Mentored junior team members and supported the Head of Bid Management in a strategic rollout of a robust bid approach to new practices within the business. This included spearheading adoption and transition to the Loopio content management system.

"As a Bid Manager it is important to be firm and forthright in completion of duties but also do so in a manner of collaboration and subtle coercion as you have no hierarchical control over contributing individuals. This is something I have seen Jamie do well." – **Barry McIvor, Managed Services Commercial Director** at Version 1 (int. feedback)

"Jamie provided an efficient, polite and assertive service, which is exactly what you want and need from a Bid Manager, whilst also maintaining a good sense of humour." – **Andrew Bland, Pre-Sales Consultant** at Version 1 (int. feedback)

"Jamie is congenial, very approachable, super organised, a quick thinker, and easy to work with. I always feel that when he's on a tender there will be a lot of support and we can have a bit of fun in the messages and meetings. [...] I've enjoyed working with Jamie on some quality proposals that have made our company a LOT of money. A real asset to our team." – **Jude McVitty, Social Value Manager** at Version 1

Bid Manager with **NTT Data** (sector: IT Consultancy) **23/08/2021 - 25/04/2022** (remote)

- Served as a senior member of the bids team and was assigned to work closely with the Public Sector and Telecoms Practices. I was required to navigate a complex and ambiguous internal environment while adapting the bid process to the needs of different Client Partners.
- Managed a successful Public Sector bid to deliver a MS Dynamics system to a major government department and managed bids within Telco to deliver a range of services, including managed services, to household name TV, broadband, and mobile suppliers.
- In this dynamic, fast-paced but judicious environment, resourcing was always tight and bids had to comply with five levels of escalating governance, from UK to Japan. This required me to adopt a methodical, proactive, and compliant bid management approach, progressing through governance gateways in parallel to written proposal development.
- Mentored junior employees in bid best practice and delivered bid writing best practice training.

"Jamie's style is open and collaborative whilst focusing on the deliverables and deadlines. With excellent communication skills he navigates the bid teams through the process with ease." – **Nicholas Hill, Senior Commercial Manager** at NTT Data

"Jamie has provided me with guidance and 1:1 mentoring to provide me with knowledge and share his experience of best practices [...] Always approachable and a great pair of hands whenever support is required." – ***Janki Kotecha, Principal Business Consultant*** *at NTT Data UK*

Bid Manager with **SSGC Ltd** (sector: Manned Guarding) **24/06/2021 - 20/08/2021** (remote)

- Joined SSGC Ltd on a short-term basis to create a bid department from scratch and position the organisation for growth through resourcing framework wins. This business had scaled from <£10m to >£100m p.a. revenue over 12 months through deploying manned guards to covid testing centres.
- Created the entire bid pipeline and bid process from scratch and worked to embed this within the organisation. I worked closely with the Managing Director to shape the bid strategy and target key opportunities. I also proposed strategic business initiatives at C-level to identify new revenue streams.

"We brought Jamie into SSGC to create a bid function from scratch, and boy! Did he deliver! Jamie's methodical approach, hard work ethic and personable style made him a pleasure to work with. He's an excellent writer and a highly efficient project manager, able to manage upwards as well as laterally across the business. We'd have him back anytime." – **Demelza Staples, Managing Director** at SSGC Ltd

Global Bid Executive with **Western Union Business Solutions** (sector: Global Payments) **27/01/2021 - 14/06/2021** (remote)

- Headhunted to this role to act as second in department to a global bids team, leading on channel partnership proposals within the payments space.
- Quickly gained familiarity with the sector and mastered the internal process, working with sales leads in the UK and US to deliver winning submissions into the universities, agricultural, and charity sectors.
- Mentored junior colleagues and contributed to the RPFIO content management system.

"A diligent, proactive bid manager. Jamie's hard work, creativity and methodical approach enabled WU to win some important new business. Jamie is an effective bid manager who knows how to build rapport with deal teams in service of the highest quality submission. Highly recommended professional!" – **Austin Sceats, Sales Lead** at Western Union Business Solutions

Business Development Consultant with **XPS Pensions Group Plc** (sector: Pensions) **26/02/2019 - 22/01/2021** (London/remote)

- Took responsibility for all actuarial and investment proposals to high value pension schemes, including a successful multi£bn restaurant & hospitality scheme. Most clients were private sector and the proposals were typically free form. Also managed pension administration tenders.
- Totally refreshed the entire content library on Qvidian to reflect a modern, personable tone of voice that better suited XPS's brand.
- Worked with consultants to define win themes and embed these in documents, to improve penetration rates.
- Pitch coached consultants to improve their win rate at final stage with trustee boards. This entailed working with them to storyboard their pitch decks, tailor powerful messaging, and polish their delivery.
- Worked with the Head of Advisory to overhaul the bid process to include more robust governance, including multiple reviews and nomination of an exec sponsor for every bid.

"From the word go I enjoyed having Jamie in my team. He brings his energy, passion and enthusiasm to every task he takes on, however large or small. [Jamie] has significantly enhanced the style and content of the bids he has worked on, making them more enjoyable and impactful to read. In my view, Jamie is a great asset to a forward-thinking ambitious team." – **Jill Want, Head of Bids** at XPS Pensions Group

Bid Manager with **Prospects Services** (sector: Careers/Education) **19/01/2016 - 31/01/2019** (Bromley)

- Joined team as youngest BM ever recruited, based on promise shown at initial interview for Bid Coordinator role.
- Took responsibility for Public Sector tenders to Local Authorities and Government Departments for Employments, Education, and Skills contracts.
- Received a company award from the CEO for leading a strategic win for the first Individual Placement Support (IPS) contract in the UK.

Bid Writer with **Sentinel Core Services** (sector: IT Recruitment) **03/03/2014 - 08/01/2016** (Tunbridge Wells)

- Worked closely with the Managing Partner to establish a proactive bid service, assisting the consultants to respond to formal framework opportunities and pitch presentations with strategic clients.
- Taught myself Adobe Illustrator to create bespoke collateral and graphics to assist consultants.
- Created and delivered technical training to equip new consultants with market knowledge that increased their credibility with clients.
