S U M M A R Y :

- **Education: BA Hon's Architecture:** (from the University of Manchester – UK - 2003).
- **21 Years total experience:** (of which 4+ Years in the UAE).
- Responsible, reliable and delivery focused construction professional with solid experience of undertaking key management duties on complex design and build projects of various types and sizes both in the UK and UAE.
- Experienced in working for PMCM Firms, Government, Developers, Main Contractors, and Architectural Firms in the following sectors: Mixed Use, Residential, Life Sciences, Commercial, Education, Hospitality, Retail and Airport.
- Involved with all project stage from feasibility, proposals, pre and post contract management and handover – I apply intelligence, strategy and planning skills to satisfy challenging clients within short time-frames.
- Proud of my versatile approach to problem solving where I use a mix of analytical and conceptual thinking to grasp both detail and high-level strategy, in order to deduce effective solutions that can keep within project constraints.
- I strive to provide leadership and a quality service to clients and colleagues by first understanding their needs, challenges and objectives, and then working with them collaboratively to create lasting solutions and relationships.

S K I L L S & K N O W L E D G E :

W O R K E X P E R I E N C E :

AUG 2021 – Present / Freelance contractor and Entrepreneur at own new start-up company,

Having secured Spanish residency and fully moved to Murcia in Q3 2021, i) I undertake freelance project and design management tasks remotely for UK & European clients, ii) am researching and developing a construction and development multi-disciplinary business (Spain based) and iii) continue to improve my Spanish language skills.

AUG 2019 – JUN 2021 / CURRIE & BROWN (Secondment to DEFRA - UK Government Department) – UK

ASSOCIATE – PROJECT MANAGEMENT AND DESIGN MANAGER

Hired to develop and improve strategic management systems and processes for all design related activities necessary for the Estates Departments ability to deliver their Capital Projects portfolio of value GBP 38Mn.

The focus of these projects', centres upon the refurbishment of CL2 / CL3 science laboratories and supporting infrastructure. In this role I provide advice and guidance to the various project teams (circa 30 people) on how best to actively manage the production of design through all stages of their respective projects and drive cost effective production of design deliverables from the framework of externally hired design specialists and suppliers.

In addition to the above, I also provide input and guidance to the key senior management on future design capability procurement strategy and industry best practice on how to improve design contract / appointment documents to facilitate commercial advantage and manage design risk.
