Samuel James Wilson

Package Manager at Sir Robert McAlpine

London Area, United Kingdom

Summary

Samuel James Wilson is a Package Manager for Sir Robert McAlpine, Special Projects division currently overseeing heritage and conservation works inside a prominent London building. Samuel, now 34 years old left school aged 15 with no qualifications to his name, only to build his career within the construction and then within the Heritage sector, first through a scholarship with The Prince's Foundation and then through his persistence and passion in the industry. Samuel is a driven individual who endeavours to protect our built heritage whilst pushing for environmentally sustainable strategies.

Experience

Sir Robert McAlpine

Package Manager in Special Projects

October 2020 - Present (2 years 11 months)

London, England, United Kingdom

Package Manager within the Special Projects team. Previously worked on The Royal Albert Hall achieving a no-defect finish. Currently working on St. Marylebone Parish Church, London.

DBR Limited

Assistant Project Manager

September 2020 - October 2020 (2 months)

As a temporary contractor, I worked alongside the DBR Management team, managing conservation works at The Houses of Parliament, London.

Williams Restoration

Contract Manager

July 2017 - March 2020 (2 years 9 months)

London

In my role as a Contracts Manager at Williams Restoration I work directly alongside the Managing Director and Director of the company, many of these aspects are not limited to the role of Contracts Manager.

This includes but is not limited to;

Tendering for new works

Surveying and Pricing

Programming works

Managing Projects

Monthly Valuations

Report writing and submission

Client & Contractor meetings

Triton Building Restoration

Project Manager

June 2016 - November 2016 (6 months)

London, United Kingdom

During my time with Triton Building Restoration I was in charge of two major conservation projects in Richmond, London. I was involved with the projects from the beginning of the application stage. Organising trades and licenses. Once the projects began I was on site liaising with the sub-contractors, liaising with contracts managers, tenants, license and council officials. Ensuring the projects were delivered on time and on budget.
