Chris Price MCIOB

Design and Build Lead - Scottish Power Renewables
North Shields, England, United Kingdom

Summary

A successful business leader with over 25 years' experience of successfully delivering complex Design and Build projects from bid stage through to construction completion, within the Industrial, PFI / PPP, Property Development, Residential, Commercial Building, Decarbonisation, Smart Buildings, Infrastructure and Renewable Energy sectors.

Key responsibilities include P&L account management, business development / work winning, cash management, business case development & implementation, risk management and stakeholder management.

Through proactive leadership with the senior management team I actively ensure that all works are delivered safely, to the required quality standards and to the satisfaction of the client whilst achieving the necessary commercial and operational requirements of the business.
