Sellafield, England, United Kingdom

BEP Delivery Team, Sellafield, Cumbria

KKC Marmaray JV. (Kalyon Kolin Cengiz Marmaray JV.)
Tunnel Site Engineer
Ekim 2018 - Mart 2021 (2 yıl 6 ay)
Istanbul, Turkey

Gayrettepe - Istanbul Airport Metro Project

Gayrettepe – Istanbul Airport Metro Line, length 75 km, an underground transport system project.
Duties and responsibilities: working with the New Austrian Tunnelling Method (NATM) , I managed all the excavation works and all reinforced concrete works in the tunnels, which are of different types, cross-sections, and functions. I coordinated and motivated the team without disturbing their work discipline.
I made plans and ensured effective communication by reporting on a daily, weekly and monthly basis throughout the project. I assisted in the preparation of the progress payment documentation. I followed up on all the materials, equipment and machinery needed during the work.

As Volkan Tünel İnşaat San.Tic. Ltd. Şti.
