Profile

Entrepreneurial and energetic project manager with over 10 years of experience in guiding customer-focused and complex change processes within the financial domain. Experienced in various change aspects, including Compliance, process optimisation, and digitisation.

My down-to-earth approach, decisiveness and drive set me apart. Using Agile Scrum, SAFe and Lean principles, I bring complex projects to a successful execution and build customer-focused and secure business processes.

My strength lies in my result driven approach, talent for problem solving and ability to connect, which quickly clarifies opportunities and needs and ensures they are implemented.

I work in a structured manner, maintain an overview even under pressure and ensure that plans are implemented. Thanks to my communication skills, I can easily switch between different stakeholders and ensure that everyone remains involved.

Overzicht werkervaring

Period	Organisation	Description
