Hiral Mehta

MSP® | PSM® | Transformation Manager | Epic Delivery Owner @ Euroclear
Brussels Metropolitan Area

Summary

A seasoned Agile Professional with 17 years of experience being part of and managing successful projects and programs across leading banks. I have strong Leadership and management skills which are further benefitted from my hands on experience in delivery using SCRUM and Spotify models. On the domain front I have good experience in European Banking, Payments, and Billing domain.

During my tenure, I have been involved in preparation of delivery plan, resource management, Team management, financial planning, collaboration with Business and technical SMEs (PO, architects, CLs), senior stakeholder management and communication Planning. I have handled regular CxO level discussions, driving Steering committee meetings, both Project and Program level status reporting, Risk reporting, and contingency planning.

I have led cross cultural, cross border and distributed teams across multiple European locations, such as Belgium, France, Spain, Italy. This along with handling the delivery from the offshore locations in India. This was achieved with the help of excellent Stakeholder and vendor management skills.

I have been able to bring out the value from the project by successfully driving the design thinking initiatives. Along with customer facing roles, I was also involved in several inward facing organizational activities & won several awards for the business unit.

I have been able to support the business by bringing in cost efficiency via successfully driving the offshoring initiative. This was possible with the help of strong governance and business acumen skills. I was also involved in several reactive and proactive proposals around Agile improvement, offshoring, Test automation and Test assessment to help customers achieve their goals.
