Prashantha KatteGoudaa

Data Engineer | Azure | ETL | Data Warehousing & Business Intelligence | Credit Risk & Finance

Utrecht Area

Summary

Data Engineer | Azure | ETL | Data Warehousing & Business Intelligence - Credit Risk & Finance Data - Immediate joiner | No visa required

Results-driven Data Engineer with 10+ years of experience in ETL development, Data Warehousing, and Business Intelligence, specializing in Risk & Finance Data, Market Risk, and Regulatory Reporting across the Banking and Media domains.

SQL, ETL, DWBI, Azure, ADLS, Databricks, Synapse, Dimensional Modeling, Data Vault

Expert in designing and implementing high-quality, automated, and scalable data solutions, ensuring data integrity, security, and governance to drive business intelligence and advanced analytics.

A proactive collaborator with a strong track record in Agile environments, dedicated to performance improvements, optimization, and automation, enabling seamless data processing and empowered decision-making.

Experience

Tata Consultancy Servicess

9 years 10 months

Azure Data Engineer - "RABO Bank"

November 2023 - March 2025 (1 year 5 months)

Utrecht, Netherlands

• Led end-to-end migration from on-premise to cloud-based data warehousing, achieving a 30% performance improvement.

• Optimized cloud-based ETL workflows, accelerating project delivery by 15%.

• Developed high-performance ETL pipelines using Azure Data Factory, Informatica, and SQL Server, boosting efficiency by 30%.
• Enhanced Azure SQL Database performance, leading to 15% lower storage costs.
• Implemented CI/CD pipelines in Azure DevOps, streamlining deployment and integration.
• Designed scalable data warehousing solutions, improving data accessibility and storage efficiency.
• Applied Data Vault 2.0 and Dimensional Modeling, optimizing data storage and reporting.
• Worked in Agile environments, delivering scalable data solutions for enterprise projects.
• Partnered with analysts and data stewards, reducing data retrieval time by 20%

Data warehousing & Business Intelligence Consultant - "RABO Bank"
September 2019 - November 2023 (4 years 3 months)
Utrecht, Netherlands

• Led end-to-end ETL development using Informatica PowerCenter and SQL Server.
• Optimized ETL workflows for 30% faster processing and improved efficiency.
• Managed data warehousing projects, ensuring data integrity and security.
• Established data governance practices to maintain high data quality standards.
• Worked in Agile teams, translating business requirements into scalable data solutions.
• Introduced CI/CD pipelines to automate deployments, reducing manual intervention.
• Conducted performance tuning of ETL processes and SQL queries for faster data processing.
• Designed and maintained on-premise data solutions for scalability and efficiency.

IT Analyst - "Credit Suisse Bank -Switzerland"
June 2015 - September 2019 (4 years 4 months)
Bengaluru, Karnataka, India

• Developed and optimized ETL workflows with Informatica PowerCenter and SQL Server.
• Streamlined ETL processes, automating tasks and reducing manual intervention.

• Built and implemented data transformation and validation rules for high-quality data.
• Collaborated with stakeholders to design data models for optimized storage and reporting.

Capgemini
Software Engineer - "Union Bank of California"
August 2011 - May 2015 (3 years 10 months)
Bangalore

• Contributed to end-to-end SDLC for Global Data Warehouse development, specializing in ETL design and testing.
• Developed and optimized ETL workflows in Informatica PowerCenter, handling various data sources and improving data integration efficiency.
• Assisted with UNIX scripting, database object deployment, and performed unit & integration testing to ensure data quality and accuracy.

Education

B. M. S. College of Engineering
Bachelor’s Degree, Computer Science Engineering · (2007 - 2010)
