CURRICULUM VITAE

NAME: Aylin Hatice Yamac

GEBURTSDATUM: 06/10/1980

AUSBILDUNG:

Programm	Universität	Jahr
Medizinische Fakultät	Universitaet Duisburg-Essen	2000-2006
Abt. für Kardiologie	Rheinisch Westfaelische Technische Hochschule Aachen	2006-2008
Abt. für Kardiologie	Medizinische Hochschule Hannover	2008-2012

Dissertation:

Stickstoffmonoxid moduliert die Funktion des zellulären Sauerstoffsensors durch HIF-1 abhängige Induktion der Prolylhydroxylase 2. Nitric Oxide Modulates Oxygen sensing by Hypoxia-Inducible Factor 1-dependent induction of Prolyl Hydroxylase 2. (2008). „Magna cum laude".

Prof. Dr. Joachim Fandrey (Department of Physiology)

Einsatz:

Assistenzarzt	Rheinisch Westfaelische Technische Hochschule Aachen Medizinische Hochschule Hannover	2006-2012
Facharzt Kardiologie	Bezmialem Vakif Universitaet	2013-2015
Assist. Prof.	Bezmialem Vakif Universitaet	2015-2019

Associated Prof.	Bezmialem Vakif Universitaet	06/2019- 09/2021

Intervent. Fellow	Ospedale Papa Giovanni XXIII Bergamo/Italien	08/2019-08/2020

Associated Prof.	Acibadem Üniversitaet Atakent Hospital	02/2022-10/2022

Oberarzt	Diakonie Krankenhaus Wehrda	10/2022-12/2024

Fellow/Facharzt	Einsatz im Herzkatheter des Herzzentrums Rotenburg zur Erlangung des detschen Facharzttitels	01/2025-06/2025

Deutscher Facharzt für İnnere Medizin und Kardiologie		20.08.2025 Bestandene Facharztprüfung

Mitgliedschaften:

- Deutsche Gesellschaft für Kardiologie, 2010

- European Society of Cardiology, 2010

- Optical Cohorence Tomography International Working Group, 2014

- EAPCI, 2016

- Türkische ECMO Gesellschaft, 2016 (Gründungsmitglied)

- Türkische Gesellschaft für Kardiologie, Arbeitsgruppen-Mitglied „cardiac diseases in women",2016

Preise:

1- Posterpreis am Forschungstag der Universität Duisburg-Essen, (Essen, 2004).
2- Travel Award, ESC Council on Basic Cardiovascular Science awards, (Hannover, 2010).
3- Stipendium der "ISHR International" in Kyoto/Japan 13-16 März, ISHR- ESC Council, (Hannover, 2010).
4- TCT Impella Stipendium, Transcatheter Cardiovascular Therapeutics, (Washington, 2014).
5- Bester Abstraktpreis, Turkische Gesellschaft für Kardiologie, (Antalya, 2014).
6- Bester Artikel 2018, publiziert in "Turkish Society of Cardiology Archives Journal" (Antalya, 2018).
7- EAPCI education and training grant award 2019, European Society of Cardiology, (Paris, 2019).

Beendete Forschungsprojekte:

1- ESC Stent for Life Initiative. Project manager Turkey 2013-2015.
2- "The role of SIRT 1 gene polymorphisms in premature myocardial infarction". Principal Investigator. University supported.
3- The prognostic role of SIRT 1 regulating micro RNAs 195 and 199a after coronarya artery bypass surgery. Principal Investigator. University supported. **Supervisor of MD thesis (Sitki Kucukbuzcu)**
4- The role of 16 kDa prolactin in risk stratification of patients with chronic heart failure. Principal Investigator. University supported.
5- Relation between post-TAVI blood pressure response, micro RNAs mir 1, 133a, 206, 202-3p and their implication on myocardial strain parameters. Principal Investigator. University supported. **Supervisor of MD thesis (Ilke Celikkale**)

Laufende Forschungsprojekte:

2- TURK-MI registry study. National. Co-investigator. Supported by the Turkish Society of Cardiology.
3- The role of lithotripsy in the treatment of coronary lesions with severe calcification. Co-Investigator. Ospedale Papa Giovanni XXIII

Einladungen als Redner:

1- 29. Turkish Cardiology Society Congress "Stent for Life Türkiye" (Antalya 2013).
2- Trancatheter Cardiovascular Therapeutics congress "Challenging Case Presenter: "Sapheneous vein graft lesion in a patient with challenging coronary anatomy" (Washington 2013).
3- "How to implement SFL in a huge country with demographic discrepancies, Turkey?. Stent for Life Forum (Brussels 2015)
4- "BVS in CTO: Angiographic and OCT follow up data", EURO CTO Club, The Experts Live 2015 (Istanbul, 2015)
5- „Imaging the vulnerable plaque", the 14th International Update in Cardiology and Cardiovascular Surgery (Antalya 2018)
6- "The role of IVUS in the treatment of left main coronary artery disease", the 15th International Update in Cardiology and Cardiovascular Surgery (Antalya 2019)
7- "Intracoronary Imaging in ACS (Expert Consensus Statement EUROPCR)" the 16th International Update in Cardiology and Cardiovascular Surgery (Antalya, 2020)
8- "Role of intravascular imaging in Instent-Restenosis", the16th International Update in Cardiology and Cardiovascular Surgery (Antalya, 2021)

Absolvierte Kurse:

11- EUGeneHeart Technical Training course "Mouse phenotyping ve EC coupling" (Universitaet Goettingen 2009).
12 "Ilumien Optis Training on Optical Cohorence Tomography" (Ospedale Papa Giovanni XXIII, Bergamo 2013).
13- Medtronic TAVI course (Medtronic Training Center Tolochenaz, Tolochenaz 2014).
14- Management of a patient with complex multivessel coronary artery disease, PCR seminars (Istanbul, 2013)
15- EAPCI ETP Course for European Fellows on Coronary Intervention (European Heart House, Sophia Antipolis 2014).
16- The best management of a patient presenting with a coronary Chronic Total Occlusion, PCR seminars (Istanbul, 2014)
17- EAPCI ETP Course for European Fellows on Coronary Intervention (EURO PCR 2019, Paris)

Spezialisierung:

1- Bezmialem Vakif Universitaet, Leiterin der kardiologischen Intensivstation (2013-2021).
2- Interventionelle Kardiologie, komplexe Koronarinterventionen (mit Fokus auf intravaskulaerem imaging)
