Back End Developer
Barcelona, Cataluña, España

Extracto

I am an optimistic, highly motivated and hard-working individual with a flexible skill set and problem solving attitude. I enjoy working as a member of a team. I also have the ability to be autonomous and focused on achieving goals. I am enthusiastic about software development and about technology.

Trilingual speaker of Spanish, Basque and English (C1 Cambridge Advanced English).

Actually looking for a remote role. Feel free to contact me (jonrioja81@gmail.com or +34626241795)

CEO Consultoria Empresarial y Organizacional
Software developer
enero de 2013 - febrero de 2015 (2 años 2 meses)
Santo Domingo (Dominican Republic)

CEO Consultoría gave me the opportunity to start my career as a software developer. I worked on the development of SAP Business One add-ons with C# using SAP Business one SDK. I also had to design and implement a Windows Forms add-on.

• Development of Process automation apps.
• Creation of Windows forms apps that use NPOI Excel library.
• Fiscal Printer app design and implementation on a C# point of sale terminal.
• Creation of Reports using Crystal Reports using SQL Server 2008.
• SAP Business One troubleshooting.
• Stored procedure creation.

CFEngine, Inc.

septiembre de 2011 - mayo de 2012 (9 meses)
Oslo y alrededores, Noruega

Day to day maintenance of the computer infrastructure and equipment.

• Providing IT support for hardware, software and networks.
• Troubleshooting, administration and support of Linux Networks and CFEngine software.
• Apache server and mail server configuration.
• Video creation for training purposes.

Economic and Commercial Office of the Spanish Embassy
IT Manager (Beca Icex)
octubre de 2009 - septiembre de 2010 (1 año)
Riyadh (Saudi Arabia)

Among the tasks I performed during this period the main ones were to maintain the computer infrastructure and equipment of the commercial office of the Spanish Embassy in Saudi Arabia.

• Providing IT support for hardware, software and networks.
• Backup creation.
• Provide training to the users of the office.
• Troubleshooting, administration and support of Windows 2003 Server and MS Exchange.
